If you get an error that says: *unable to install or run this application because it requires your .Net version to be updated, please contact your system administrator or IT support. This will require admin privileges to proceed with the install.*

• Contact your IS/IT department and ask them to install **Microsoft** .**NET 4.7.2** on your computer

Start the re-installation

If the installation is complete, the logon screen should appear and a desktop shortcut is automatically created.
